

INCOBRA Webinar #12

International Cooperation on High Performance Computing

The FETHPC-01-2018 H2020 call

The INCOBRA project has received funding from the European Union's Horizon 2020 Research and Innovation programme, under the Grant Agreement number 692520. This publication reflects only the author's view and the Commission is not responsible for any use that may be made of the information it contains.

INCOBRA Webinar #12

Dear colleague,

On behalf of INCOBRA consortium, we would like to invite you to join our twelfth webinar:

International Cooperation on High Performance Computing. The FETHPC-01-2018 H2020 call

The webinar will take place on the **24th April 2018, at 2.00pm GMT** (3.00pm CET and 10.00am Brasilia's time). The webinar will last 60 minutes and will be held in English.

We will present the Horizon 2020 open call "International Cooperation on HPC" which aims to develop strategic partnership in High Performance Computing with Brazil and Mexico to advance the work on HPC applications in domains of common interest. Brazilian and Mexican partners will not be funded by the EU and they are expected to participate in the project with their own funding.

The cooperation with Brazil focusses on developing state-of-the-art HPC applications in domains of common interest, such as in **eHealth and drug design** (e.g., related to diseases such as Zika and Dengue) or **energy** (e.g., renewables or management of natural resources). Proposals should put emphasis on application development towards exascale performance, develop codes, algorithms, other software tools, big data analytics, and hardware where appropriate.

Our experts from the EU Delegation in Brazil will present the call and provide insights on these priority areas of EU-Brazil cooperation.

We'll also present the strategic Action Plan to foster Research and Innovation (R&I) EU-Brazil cooperation in the Green Energy sector, developed by INCOBRA.

Moreover we'll present the EC funded programme [FET2RIN](#) aimed at supporting FET (Future Emerging Technologies) projects to reach out investors and make a larger impact on society.

Moderator:

- Chiara Davalli, EBN www.ebn.eu

Speakers:

- Luciana Lenhari, UNICAMP
- Dario Mazzella, META Group Coordinator of FET2RIN
- Juan Pelegrin, European Commission, DG CONNECT
- Dr. Carlos Oliveira, Ministro-Conselheiro Sociedade de Infomação e Mercado Digital, Delegação da União Europeia no Brasil

About INCOBRA Webinar #12

This webinar will present the Horizon 2020 open call “International Cooperation on HPC” which aims to develop strategic partnership in High Performance Computing with Brazil and Mexico to advance the work on HPC applications in domains of common interest. Brazilian and Mexican partners will not be funded by the EU and they are expected to participate in the project with their own funding.

Programme - GMT time

- ✓ 2:00-2:05 Introduction about the webinar and INCOBRA opportunities > Chiara Davalli, EBN
- ✓ 2:05-2:15 INCOBRA strategic Action Plan on Green Energy > Luciana Lenhari, UNICAMP
- ✓ 2:15-2:25 The FET2RIN programme, leveraging FET projects' impact > Dario Mazzella, META Group
- ✓ 2:25-2:30 Q&A > Chiara Davalli, EBN
- ✓ 2.30-2:50 The FETHPC-01-2018 H2020 call > Dr. Juan Pellecgrin European Commission, DG CONNECT, and Dr. Carlos Oliveira, Ministro-Conselheiro Sociedade de Infomação e Mercado Digital, Delegação da União Europeia no Brasil
- ✓ 2:50-3:00 Q&A & Conclusions > Chiara Davalli, EBN
