EUREKA CALL BRAZIL 2018

04.10.2018

- The consortium should include at least one Brazilian and one (for profit, independent) company of the EUREKA member countries participating in the call. Participation of research institutes and universities is welcome according to each country's funding regulations.
- The project partners must express their will to cooperate on a win-win/fair basis in an R&D project leading to a new product, industrial process or service.
- The product, process or service must be innovative, and there must be a technological risk involved for all involved partners.
- The project must benefit all involved partners.
- The project should have an obvious benefit and added value resulting from the technological cooperation between the participants from the different countries (e.g. increased knowledge base, commercial leads, access to R&D infrastructure etc.).
- Partners are required, prior to submitting the application, to contact their national/regional Authority (see below) in order to check the eligibility of their project.
- A signed consortium agreement is mandatory before the actual start of the project. It ought to include, amongst others, the ownership and use of know-how and IPR settlements.
- The duration of the project may not exceed 36 months.
